## DETAILED ACTION

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 9 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 9 states "the first and second oxide materials comprise ... silicon nitride,... silicon carbide,...", silicon nitride and silicon carbide are not oxides, so how can the oxide materials be made of materials which contain no oxygen? Correction is required.

Claims 1-8 and 10-18 are allowed.

The following is an examiner's statement of reasons for allowance: None of the prior art teaches or suggests a method of filling a gap with oxide including depositing a first oxide to partially fill the gap at a pressure of less than 10 millitorr and depositing a second oxide to fill the gap at a pressure of greater than 10 millitorr.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kevin M. Picardat whose telephone number is 571-272-1841. The examiner can normally be reached on Monday-Thursday 7:00-5:30.
